Chapter 175M
Healthcare Bills

Common themes

▫ Would increase healthcare costs by setting caps on deductibles & copayments
▫ Would change the composition of the GIC
▫ Would change healthcare contribution premium percentages, but grandfather in retirees
▫ Would allow unions to weigh in on selecting health insurance plans

MMA opposes these bills
Retirement Bills

**Common themes**

- Would award members more creditable service
- Would enhance pension eligibility (e.g., creditable years of service)

- Would facilitate zoning changes for higher-density housing production

- Does not override local zoning bylaws
- Does not contain zoning mandates
- Does not impose state-set zoning standards
Marijuana

- On July 29 at the Joint Committee on Cannabis Policy, MMA testified against 2 bills which would impact municipal authority in relation to the negotiation of Host Community Agreements (HCAs):

  - S. 1126 - An Act relative to HCAs
- Final revised regulations include the social consumption pilot program and home delivery
Cable

- FCC ruling effective Sept. 26th changes longstanding definition of in-kind contributions - now included in 5% franchise fee cap
- Ruling applies to all existing cable franchising agreements
