Background on the Command Center
The COVID Command Center, under the leadership of Secretary Marylou Sudders and reporting to Governor Charlie Baker and Lt. Governor Karyn Polito, is the Commonwealth’s single point of strategic decision making and coordination for the Administration’s comprehensive COVID-19 response.
COVID-19 RESPONSE COMMAND CENTER
DAILY SITUATION REPORT

State Actions

Reopening Massachusetts: Transition to Phase II
The Baker-Polito Administration has announced that Phase II of the Commonwealth’s reopening plan will begin as of today, June 8th.

Businesses and sectors set to begin opening in Phase II are subject to compliance with all mandatory safety standards.

On May 18, the Administration released a four-phased plan to reopen the economy based on public health data, spending at least three weeks in each phase. Key public health data, such as new cases and hospitalizations, has been closely monitored and seen a significant decline.

The public health dashboard designating the progress of key COVID-19 data metrics has been updated to reflect the number of COVID-19 patients in Massachusetts hospitals to green, indicating a positive trend.

Since mid-April, the 7-day average for the positive COVID-19 test rate is down 83 percent, the 3-day average of hospitalized patients is down 59 percent, and the number of hospitals in surge is down 78 percent.

A total of over 653,000 viral COVID-19 tests have been completed, and testing continues to increase throughout the state.

The following businesses will be eligible to reopen in Step One of Phase II, with contingencies:
- Retail, with occupancy limits;
- Childcare facilities and day camps, with detailed guidance;
- Restaurants, outdoor table service only;
- Hotels and other lodgings, no events, functions or meetings;
- Warehouses and distribution centers;
- Personal services without close physical contact, such as home cleaning, photography, window washing, career coaching, and education tutoring;
- Post-secondary, higher education, vocational-tech, and occupation schools for the purpose of completing graduation requirements;
- Youth and adult amateur sports, with detailed guidance;
- Outdoor recreation facilities
- Professional sports practices, no games or public admissions;
- Non-athletic youth instructional classes in arts, education, or life skills and in groups of less than 10;
- Driving and flight schools
- Outdoor historical spaces, no functions, gatherings or guided tours;
- Funeral homes, with occupancy limits

The following businesses will be eligible to reopen in Step Two of Phase II at a later date to be determined:
- Indoor table service at restaurants
- Close-contact personal services, with restrictions, including:
  - Hair removal and replacement
  - Nail care
  - Skin care
  - Massage therapy
  - Makeup salons and makeup application services
COVID-19 RESPONSE COMMAND CENTER
DAILY SITUATION REPORT

- Tanning salons
- Tattoo, piercing and body art services
- Personal training, with restrictions

Full list and safety protocols available at [www.mass.gov/reopening](http://www.mass.gov/reopening).

The Baker-Polito Administration also released other sector specific guidance:
- **Close Contact Personal Services**
- **Sectors Not Otherwise Addressed**

Health care providers may also incrementally resume in-person elective, non-urgent procedures and services, including routine office visits, dental visits and vision care subject to compliance with public health and safety standards. All other in-person medical, behavioral health, dental and vision services may also resume on June 8th, except for elective cosmetic procedures and in-person day programs, which will be included in Phase III. Telehealth must continue to be utilized and prioritized to the greatest extent possible, whenever feasible and appropriate.

Limited reopening of visitation will also begin, and all visitation is subject to infection control protocol, social distancing and face coverings. Given the diversity of facilities and programs, there are specific timetables for visitation, and congregate care programs will be reaching out to families with specific details on scheduling visits.

**COVID-19 Public Health Data**

On Wednesday, the Command Center released the comprehensive Weekly COVID-19 Public Health Report, which is posted each week. On June 3, DPH began reporting data on those who have recovered from COVID-19 on page 22 of the report. Individuals who had a confirmed case of COVID-19 and are no longer in isolation are considered for purposes of this report to be recovered. As part of this definition, DPH is counting people as released from isolation after 21 days of illness or 21 days past the date of their test in all settings including nursing homes and state facilities.

The Weekly COVID-19 Public Health Report also includes town-by-town case and testing information, along with detailed case and death data related to long term care facilities. The report also includes update on nursing facility audits and more. You can find all the data reports by visiting the COVID-19 Response Reporting page. (Find the Data Files Here).

Key data reflected in today’s Daily Dashboard is provided below:
Below is the status as of June 5, 2020:

<table>

Newly Reported Cases Today: 193
Total Cases: 103,626
Newly Reported Deaths Today: 38
Total Deaths: 7,353
New Patients Tested by Molecular Tests: 4,782
Total Patients Tested by Molecular Tests: 653,398
New Patients Tested by Antibody Tests: 258
Total Patients Tested by Antibody Tests: 51,404

Confirmed and Probable Case Breakdown

**Confirmed**
- Newly Reported Confirmed Cases Today: 193
- Total Confirmed Cases: 99,755
- Newly Reported Deaths among Confirmed Today: 38
- Total Deaths among Confirmed Cases: 7,217

**Probable**
- Newly Reported Probable Cases Today: 0
- Total Probable Cases: 3,871
- Newly Reported Deaths among Probable Today: 0
- Total Deaths among Probable Cases: 136

Patients with a positive molecular test for COVID-19 are counted as confirmed.
Patients with a positive serology/antibody test and either COVID-like symptoms or likely exposure to COVID-19 are counted as probable cases.
Patients who did not have a laboratory test but whose death certificate listed COVID-19 as a cause of death are counted as probable deaths.
Probable cases are included in all counts from March 1 onward.

Data Sources: COVID-19 Data provided by the Bureau of Infectious Disease and Laboratory Sciences, and the Registry of Vital Records and Statistics.Tables and figures created by the Office of Population Health.
Note: all data are current as of 1200am.
Important Updates

Massachusetts Commencement 2020
In partnership with WGBH, Governor Baker will deliver a commencement address to the Class of 2020 as part of a celebration for graduating seniors from 668 public and private schools across the Commonwealth, to be aired in a special broadcast on Tuesday, June 9 at 7:30 PM on WGBH 2, and on its partner station WGBY/New England Public Media in western MA. In addition, all Boston TV stations have agreed to broadcast the event.

The celebration will also be streamed on WGBH.org, as well as the WGBH Facebook page, and YouTube, IGTV, and Twitch channels.

Massachusetts Commencement 2020 will feature congratulatory remarks from Jason and Devin McCourty of the New England Patriots, members of the Red Sox and the Boston Celtics, and a number of celebrities with Massachusetts ties, including singer Rachel Platten, actor Steve Carell and more.

In a special premiere performance, members of the legendary Boston Pops Orchestra, with Keith Lockhart conducting, will provide the traditional graduation march ‘Pomp and Circumstance’ for the ceremony. Students from around the Commonwealth will give valedictorian-type speeches to their classmates.

Holyoke Soldiers’ Home Update

- The Soldiers’ Home in Holyoke is actively preparing to resume outdoor visitation per the state-issued guidelines on June 15. In preparation, the Home conducted another round of full house COVID-19 testing of Veteran residents and staff. Testing results will be reported in the coming days.
  - The Soldiers’ Home is following visitation guidance, and is developing outdoor visitation protocols that prioritize the health and safety of our Veterans and staff with continued focus on infection control. This plan will be contingent on the continued stability of infection controls and public health metrics, which we continue to monitor daily and coordinate with state and local health officials.
- The Holyoke Soldiers’ Home has been intently focused on following infection control procedures and maintaining best practices for the safety of veteran residents and staff, and to support the recovery of veterans as the health status of many stabilizes. All veteran residents’ health is being monitored and retesting is being conducted for veterans both on- and off-site as clinically appropriate. As results are received, veteran residents are being cohorted and further monitored. Recovery units are being identified and readied for residents.
- Holyoke’s Clinical Command continues to respond to the COVID-19 outbreak, monitoring staffing levels, while bringing on additional management staff for nursing, facilities, and administration staff to build capacity for resuming regular operations and moving to the recovery phase.
Staff continue to work with veterans on iPad training, and have started to individualize iPads for veterans with contacts and apps. Members of the National Guard are supporting this and other recreation. iPads are being used for regular family communication through video chat, and the Family Hotline is available for ad hoc updates with support from social work and clinical staff.

- Families can call the Family Hotline at 413-552-4764 Monday - Friday 8:00 a.m. - 4:00 p.m. Families can also request updates via email at CommunicationsMailbox-HLY@Mass.gov.
- Please note the Soldiers’ Home can only share medical information about a resident with the authorized health care proxy on file. If a family member requests an update and is not the health care proxy, the name of the health care proxy will be shared and it will be suggested that the health care proxy should call and request the update.

Governor Charlie Baker has advised flags be lowered to half-staff until the end of the public health emergency at the Soldiers’ Home in Holyoke, Soldiers’ Home in Chelsea, as well as the Massachusetts Veterans Memorial Cemetery in Agawam and Winchendon due to the fact Military Honors are unavailable during this public health crisis.

The Soldiers’ Home in Holyoke presented a virtual Memorial Day service, as part of the state’s efforts to hold Memorial Day events virtually this year to honor military who have sacrificed for our country, and veterans who have passed in the last year. The program will continue to be available for viewing on their Facebook page.

Resident locations:
- 101 residents are onsite
- 30 residents are offsite
  - 28 residents are at a dedicated skilled nursing unit at Holyoke Medical Center
  - 2 residents are receiving acute care offsite

- **Testing results will be updated when restesting results are received.** The most recent results are those from Tuesday, June 2:
  - 93 veteran resident deaths (76 positive, 16 negatives, 1 unknown)
  - Testing results of all residents:
    - 74 veteran residents have tested positive
    - 57 veteran residents have tested negative
  - 84 employees have tested positive

**Chelsea Soldiers’ Home Update**

- The Soldiers’ Home in Chelsea is actively preparing to resume outdoor visitation per the state-issued guidelines on June 15. In preparation, the Home conducted another round of full house COVID-19 testing of Veteran residents and staff. Testing results will be reported in the coming days.
  - The Soldiers’ Home is following visitation guidance, and is developing outdoor visitation protocols that prioritize the health and safety of our Veterans and staff with continued focus on infection control. This plan will be contingent on the continued stability of infection controls and public health metrics, which we continue to monitor daily and coordinate with state and local health officials.
- Chelsea has been revisiting their plan to deliver long-term care in the coming years, and has begun a project with the Division of Capital Asset Management and Maintenance (DCAMM) to convert existing wards into separate living spaces for infection control purposes in the interim time before the completion of the new Community Living Center. At the end of the construction the projected new maximum available census will be 112 Veterans; previously, Chelsea had been approved to maintain a
maximum census of 139 Veterans. This project will not impact the current veterans at the Soldiers’ Home, and no veterans will be moved out of the facility during construction.

- Over the weekend the Soldiers’ Home received a shipment of PPE from MEMA and a donation of surgical masks. As infection control remains a focus of the Chelsea Soldiers’ Home, the Chelsea Clinical Command continues to monitor and enforce staff use of personal protective equipment (PPE). Staff have been provided PPE core competency training, the entire facility is rounded on daily for infection control quality assurance checks, all units have been provided with educational materials, and there are daily cleanings throughout the facility in addition to frequent terminal cleaning. We are also continuing to coordinate closely with the VA Health Care System.

- Veteran residents’ health is being monitored and retesting is being conducted for veterans both on- and off-site as clinically appropriate. As results are received, veteran residents are being cohorted and further monitored. Additional isolation space has been identified and is being readied.

- Video visits between veteran residents and their loved ones are continuing with support from the Chelsea Soldiers’ Home Social Work team and staff. Families can request updates on their loved ones by contacting the Home at CSH@mass.gov and through phone and video conversations. Medical information can only be shared with an authorized health care proxy.

- Governor Charlie Baker has advised flags be lowered to half-staff until the end of the public health emergency at the Soldiers’ Home in Chelsea, Soldiers’ Home in Holyoke, as well as the Massachusetts Veterans Memorial Cemetery in Agawam and Winchendon due to the fact Military Honors are unavailable during this public health crisis.

- The Soldiers’ Home in Chelsea presented a virtual Memorial Day service, as part of the state’s efforts to hold Memorial Day events virtually this year to honor military who have sacrificed for our country, and veterans who have passed in the last year. The program is still available for viewing on the Home’s Facebook page.

- As of Monday, June 8 there have been 41 veteran resident deaths (31 tested positive, 10 tested negative).
  - Today’s update includes the death of 1 Veteran who was COVID-negative and receiving comfort measures only.

- The testing numbers will be updated when restesting results are received. The most recent testing numbers are those from Friday, June 8:
  - 36 veteran residents who have tested positive
  - 178 veteran residents who have tested negative
  - 60 staff tested positive

Resources

COVID-19 Isolation and Recovery Sites
The Commonwealth’s COVID-19 Command Center and MEMA have stood up regional isolation and recovery sites located in hotels across the state. Providers or individuals from Boston can access isolation sites at Boston Hope or Newton Pavilion by calling (617) 534-5050. Individuals who do not live in Boston can access Isolation & Recovery Sites in Lexington, Everett, Taunton, Northampton, and Pittsfield by calling (617) 367-5150 between the hours of 7 a.m. and 7 p.m.

More information, to include clinical and financial eligibility, can be found here.
COVID-19 RESPONSE COMMAND CENTER
DAILY SITUATION REPORT

Disaster Recovery Information
On March 27, the President declared a Major Disaster Declaration for the Commonwealth of Massachusetts related to the COVID-19 pandemic response. Through this declaration, federal aid will be made available to cities and towns, state agencies, and certain non-profits in all Massachusetts counties to help pay for emergency protective measures (response costs) related to the COVID-19 pandemic. MEMA’s Recovery Unit has developed a webpage with information and guidance on, but not limited to, disaster declaration, eligibility criteria, and the application process.

COVID-19 Public Resources Map
MEMA, together with MA VOAD and other partners, has developed a COVID-19 Public Resources Map showing the location of resources available to the public, such as food banks, houses of worship, and Project Bread site locations. Please note that this map is not inclusive of all resources and is only as accurate as the information that has been provided to MEMA.

Massachusetts COVID-19 Response Dashboard
MEMA has developed and maintains a public-facing COVID-19 ArcGIS Online dashboard, available here. This dashboard is continuously updated and captures information about current COVID 19 case counts, cases by age, cases by county, hospital status, hospital bed status, death tolls, and deaths by age. Users should refresh the dashboard on a daily basis as enhancements are continuously being added.

Stay Informed

- Get information from trusted sources. Visit https://www.mass.gov/covid19 for the latest news, case counts, and lab testing results. Call 2-1-1 with questions. Text the keyword COVIDMA to 888-777 to receive notifications to your phone. To receive these notifications in Spanish, text COVIDMAESP to 888-777.
- Take care of your emotional health:
  - Call 2-1-1 and choose the “CALL2TALK” option.
  - Samaritans is continuing operations 24/7, as always. During this unprecedented time, it can feel overwhelming to receive constant messages about COVID-19. Call or text their 24/7 helpline any time at 877-870-4673.
  - The Disaster Distress Helpline, 1-800-985-5990, is a 24/7, 365-day-a-year, national hotline dedicated to providing immediate crisis counseling for people who are experiencing emotional distress related to any natural or human-caused disaster, including disease outbreaks like COVID-19. This toll-free, multilingual, and confidential crisis support service is available to all residents in the United States and its territories.

The Need for Blood Donations Continues, and Recovered Covid-19 Donors Can Help Save Lives
In coordination with the U.S. Food and Drug Administration (FDA), the Red Cross is seeking people who are fully recovered from the new coronavirus to sign up to donate plasma to help current COVID-19 patients. People who have fully recovered from COVID-19 have antibodies in their plasma that can attack the virus. This convalescent plasma is being evaluated as treatment for patients with serious or immediately life-threatening COVID-19 infections, or those judged by a healthcare provider to be at high risk of progression to severe or life-threatening condition. Interested individuals can visit RedCrossBlood.org/plasma4covid to learn more, and if eligible, sign up to help.

We are also encouraging people who have not had COVID-19 to schedule and keep appointments to donate blood or platelets to ensure a stable blood supply during this pandemic. Donating blood products is essential to community health and the need for blood products is constant. As part of our nation's critical infrastructure, healthy individuals can still donate in areas that have issued shelter in place declarations. The Red Cross follows the highest standards of safety and infection control, and volunteer donors are the only source of blood for those in need. To make an appointment to donate, please visit www.RedCrossBlood.org

Requests for Red Cross Emergency Response
American Red Cross
COVID-19 RESPONSE COMMAND CENTER
DAILY SITUATION REPORT

The American Red Cross (ARC) of Massachusetts is committed to fulfilling our Mission of providing emergency relief to our neighbors following a home fire or other disaster. We have implemented temporary changes to our response protocols. ARC we will be responding to your requests for service with a virtual response and ask your assistance in sharing this information with your Incident Commanders and Dispatch Center personnel.

Notification: Continue to request a response by contacting our long-standing emergency line 800-564-1234.

When calling: Please have contact information for the head of household for each displaced family unit. A point of contact from the Fire Department or Emergency Management on-scene that we can coordinate with if needed. Quick assessment as to extent of damage.

What we will do:
- Contact each head of household by phone or video chat. Open a virtual case for each affected family.
- Arrange for lodging if needed.
- Deliver a Client Assistance Card (financial assistance) to hotel, family member’s home, etc.
- Provide Recovery guidance and assistance in the days following the incident.

If a virtual response is not possible, we will send a minimal number of Red Cross volunteers to the scene to orchestrate the virtual intake process. We value our partnership with your department and encourage you to contact us with any questions.
